

Safety Enhancements at Short-Storage-Space Railroad Crossings

OR19-032

Requisition #2756

4/11/2019

Q: Is MDOT more interested in addressing short storage issues where the intersection is upstream of the railroad crossing, or where the railroad crossing is upstream of the intersection? Or is it both?

A: MDOT is more interested in addressing short storage issues where the intersection is upstream of the railroad crossing (where vehicles can back up over crossing).
